joshuaromero@gmail.com | +63 966 855 8901 | Makati City, Philippines

PROFESSIONAL SUMMARY

Electronics Engineering graduate turned automation builder who uses AI to design and deploy custom workflow tools. Built production-ready Chrome extensions, Google Apps Script systems, and CRM automations for a US-based e-commerce company — all in days, not weeks. Proficient at identifying repetitive tasks and replacing them with scripted solutions. Looking for a role where I can build tools that make work faster, smarter, and more efficient.

KEY SKILLS

Automation & Scripting: Google Apps Script | JavaScript (Chrome Extensions) | HTML/CSS | Zapier/Make.com | API integrations | AI-assisted coding (ChatGPT, Claude, Deepseek)

AI Tools & Workflows: ChatGPT | Claude AI | Gemini | Deepseek | Prompt engineering | AI-assisted design (Google Flow / Nano Banana 2) | AI image generation | AI voice/speech (ElevenLabs, Descript)

Productivity & Admin: Google Workspace | Microsoft 365 | Notion | Slack | Zoom | Loom | Calendly

CRM & Operations: HubSpot | Zoho CRM | Shopify | Amazon Seller Central

Design & Content: Canva | Figma | WordPress/Elementor | CapCut | Adobe Photoshop | Adobe Premiere Pro

Project Management: Asana | Trello | ClickUp | Basecamp

PROFESSIONAL EXPERIENCE

Operations & Automation Specialist

Flagship One Inc. (US-Based Engine Computer E-Commerce Company) | June 2022 – Present

Built production automation tools that saved hours of manual work:

- **Review Management System:** Built a Google Apps Script tool that fetches negative reviews from multiple platforms (Google, Trustpilot, Sitejabber, eBay, BBB), auto-fills customer details, and generates phone scripts and follow-up emails. Reduced review processing time from 30+ minutes to under 5 minutes per batch.
- **Order Sourcing System:** Designed a Google Sheets + sidebar tool for saving supplier details by order. Tracks budget, vendor options (yards/eBay), and purchase status. Also added a copy button that generates ready-to-paste CRM notes. Eliminates manual notetaking and reduces sourcing time by ~40%.
- **Bulk Email Automation (Google Apps Script):** Scripted creation of personalized Gmail drafts with PDF attachments for customer outreach. Automates what was previously 2+ hours of manual drafting into a single click.
- **CRM Auto-fill Tool (Chrome Extension):** Built a lightweight Chrome extension that auto-fills repetitive fields and copies data to clipboard in the company's CRM. Removed manual copy-paste steps from daily workflow.

Operations & Account Management:

- Manage 20+ customer accounts daily, overseeing order fulfillment, outsourcing, status updates, and client communications.
- Handle inbound/outbound sales calls and live chats, contributing to revenue targets.
- Conduct proactive outreach to customers who left negative reviews — successfully converting dissatisfied customers into 5-star experiences.
- Ranked among the Top 10 Account Managers company-wide across multiple evaluation periods.

Beta Tester & Community Super Moderator

Xiaomi Mi Community | 2014 – 2022

- *Tested pre-release MIUI beta builds, documented software bugs to support stable OS updates before public rollout.*
- *Authored and published step-by-step tutorials and tech guides for the community, reducing repetitive support inquiries.*
- *Moderated a globally active tech community of 7 million+ members, enforcing guidelines and maintaining a respectful environment.*
- *Organized community contests and content challenges that drove consistent member participation.*

EDUCATION

Bachelor of Science in Electronics Engineering

Polytechnic University of the Philippines | Sto. Tomas, Batangas, Philippines | 2022

CERTIFICATIONS

- *Building AI Agents - Zapier Academy - 2026*
